

NEXTGEN Growth

CONSTRUCCIÓN CIRCULAR

"Holcim está liderando el cambio de la industria de la construcción de lineal hacia la circular, construyendo ciudades desde las propias ciudades. Desde nuestra sólida huella en áreas metropolitanas hasta nuestro motor de innovación y M&A, estamos en una posición única para desbloquear esta oportunidad de crecimiento rentable."

Alfonso Paradinas, Chief Marketing and Innovation Officer

ACELERAR EL CRECIMIENTO RENTABLE

Holcim está en la mejor posición para escalar este negocio

Sólida huella
en áreas metropolitanas

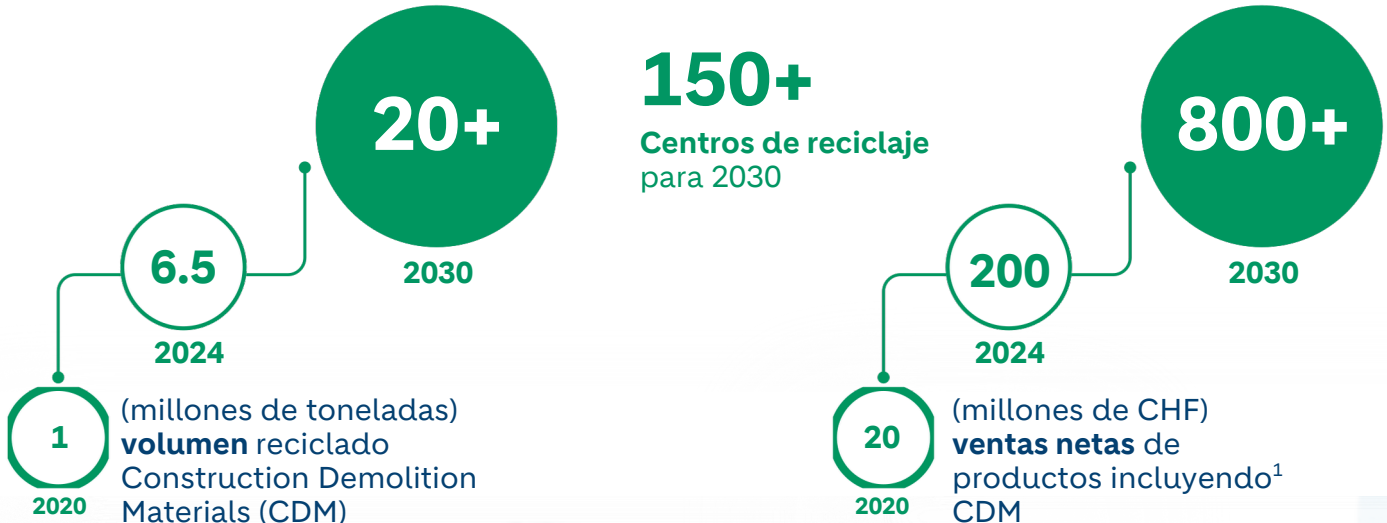

Innovación

Integración vertical

ECOCycle®
BUILDING CITIES FROM CITIES

¹ Defined as products and solutions with ECOCycle® inside containing at least 10% recycled construction demolition materials
Note: Financial information refers to Holcim post spin-off, which differs from Holcim's audited consolidated financial information included in the 2024 Annual Report.

'Holcim' refers to Holcim Ltd and its subsidiaries in its post spin-off structure, following the completion of the planned full capital market separation of the North American business (i.e. Amrize Ltd and its subsidiaries at the time of the spin-off), which is subject to shareholder approval at the Holcim Annual General Meeting on 14 May 2025 and other customary approvals. All financial metrics referencing historical data prior to 2024 are adjusted to exclude contribution from countries divested as of 31 December 2023. Post spin-off Holcim financial information derives from Holcim's 2024 Group financial performance from which we excluded the contribution of the North American business and transaction and separation costs in connection with the spin-off.
